Full-Stack Web Developer

PROFESSIONAL SUMMARY

Full-Stack Web Developer with a BCA degree and hands-on experience building and maintaining PHP/MySQL web applications, RESTful APIs, and responsive front-end interfaces. Proficient in HTML5, CSS3, JavaScript (ES6+), React.js, Node.js, and modern development workflows including Git and Docker. Demonstrated ability to deliver scalable, secure, user-focused web solutions with clean, maintainable code. Solid understanding of OWASP Top 10 brings a security-first approach to every project. Open to relocation and committed to continuous growth in full-stack web development.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS

Backend: PHP, Node.js, Express.js

Databases: MySQL, MongoDB (basic)

Tools & Platforms: Git, GitHub, Docker, VS Code, npm, Webpack, Linux/Ubuntu, Apache, AWS (basic)

Security: OWASP Top 10, XSS/CSRF/SQL Injection prevention, secure API design, input validation

Methodologies: REST API design, responsive/mobile-first design, Agile/Scrum, cross-browser testing, code review

PROFESSIONAL EXPERIENCE

Web Developer Intern

Jan 2025 – May 2025

Cognitive Solutions - India

- Designed and developed scalable PHP/MySQL web applications supporting core business operations, improving data management efficiency and reducing manual processing time.
- Built responsive front-end interfaces using HTML5, CSS3, and JavaScript (ES6+), ensuring cross-browser compatibility and mobile-first design across all deliverables.
- Integrated RESTful APIs and third-party services to extend application functionality, enabling seamless data exchange between client and server.
- Performed systematic unit and integration testing; debugged performance bottlenecks, achieving a 20% reduction in average page load time.

Cybersecurity Analyst Intern

Sep 2025 – Mar 2026

EyeQ Dot Net - India

- Conducted web application security assessments following OWASP Top 10 guidelines, identifying SQL Injection, XSS, and CSRF vulnerabilities across multiple client environments.
- Performed code-level security reviews, reinforcing secure coding practices including parameterised queries, output encoding, and session management.
- Produced detailed vulnerability reports with remediation recommendations, enabling development teams to resolve critical issues efficiently.
- Analysed HTTP traffic using Burp Suite and Wireshark to identify anomalous patterns and validate security controls in web applications.

PROJECTS

Skin Tone – Full-Stack E-commerce Platform - PHP, MySQL, HTML5, CSS3, JavaScript

- Architected a full-stack e-commerce web application with product listings, shopping cart, order management, and a role-based admin dashboard.

- Implemented appointment booking with calendar integration, delivery tracking, and automated email notifications using PHPMailer.
- Designed a normalised MySQL relational database schema; wrote optimised queries for high-volume product and transaction data.
- Deployed on a Linux/Apache server; implemented secure user authentication with password hashing and session management.

Personal Portfolio Website - HTML5, CSS3, JavaScript, GitHub Pages

- Developed a fully responsive personal portfolio website using HTML5, CSS3, and vanilla JavaScript with smooth-scroll navigation and animated section reveals.
- Built an interactive project showcase and contact form with client-side validation; implemented mobile-first, cross-browser-compatible layouts.
- Deployed on GitHub Pages; optimised for performance, accessibility, and cross-browser compatibility.

EDUCATION

Bachelor of Computer Applications (BCA)

2022 – 2025

Srinivas University, Mangaluru, India

Pre-University College – CEBA

2020 – 2022

St. Aloysius PU College, Mangaluru, India

LANGUAGES

English, Hindi, Urdu, Malayalam, Kannada
